

## Polyguard® 650 Membrane Sheet Waterproofing Membrane

**Available in:** 200 SF roll  
36" x 66.7' roll  
48" x 50' roll  
39.36" x 61' metric roll  
1 roll per carton

### Features & Benefits

- Factory bonding assures 60-mil uniform thickness.
- Wide membrane width allows for fast and easy application, with reduced seams on continuous flat surfaces.
- Detail Tape available for trim corners, construction joints, and other applications.
- Release film does not tear like paper release.
- Extended selvage edge provides asphalt-to-asphalt adhesion at the seam.
- Our 36" and 48" membranes are manufactured in white color, which helps reflect heat.
- The 650 membrane can be utilized in the Dual Core System that capitalizes on both the advantages of a fluid-applied and sheet-applied membrane in a single system.
