Polyguard® 650 Membrane
Sheet Waterproofing Membrane

Features & Benefits

- Factory bonding assures 60-mil uniform thickness.

- Wide membrane width allows for fast and easy application, with reduced seams on continuous flat surfaces.

- Detail Tape available for trim corners, construction joints, and other applications.

- Release film does not tear like paper release.

- Extended selvage edge provides asphalt-to-asphalt adhesion at the seam.

- Our 36” and 48” membranes are manufactured in white color, which helps reflect heat.

- The 650 membrane can be utilized in the Dual Core System that capitalizes on both the advantages of a fluid-applied and sheet-applied membrane in a single system.

Available in: 200 SF roll
36” x 66.7’ roll
48” x 50’ roll
39.36” x 61’ metric roll
1 roll per carton
