### POLYGUARD<sup>®</sup> AIRLOK<sup>®</sup> SHEET 400 SERIES

#### NON-PERMEABLE AIR & MOISTURE BARRIER SHEET MEMBRANES

##### **Polyguard Airlok<sup>®</sup> Sheet 400 Series**

Airlok<sup>®</sup> 400 Series Air and Moisture Barriers are non-permeable sheet membranes, available in various sizes, designed for air and moisture protection in both field and flashing applications. The rubberized-asphalt properties allow for the membrane to fully adhere tenaciously to itself, surface materials; such as wood, metal, sheathing, concrete, and fasteners that are left in place, which eliminates membrane blow-off and tears before exterior wall finish installation. Once installed and covered with cladding, the membranes are permanent and will not rot or decay from mildew or mold. The Airlok<sup>®</sup> 400 membranes are 40 mils thick and are available in various pre-cut sizes to meet the demands of traditional flashings and details.

##### **AIRLOK<sup>®</sup> 400 NP (40 mil, HDPE Clad, Asphalt Based, Non-Permeable Sheet) (Cut sizes have Slit Release)**

Check	400 NP Products	Part Number	Unit Size	Units/pallet	Wt/unit
	Airlok <sup>®</sup> Sheet 400 NP 36"	AIRLOK SHEET 400036 NP	1 – 36" x 75' roll/carton	36 ctns/pallet	68#/ctn
	Airlok <sup>®</sup> 400 NP 6"	AIRLOK 40006 NP	6 – 6" x 75' rolls/carton	36 ctns/pallet	68#/ctn
