PRODUCT DESCRIPTION

Poly Cover is a preformed dome shaped tie back cover made with heavy duty, high impact ABS plastic. It is designed to cover protruding tie-back bolts less than 6-inches in height in lagging and retention walls prior to application of the Underseal[®] Blindside Membrane.

Poly Cover carton contains 10 - 6" X 14" X 14".

TECHNICAL DATA

Polyguard Products, Inc. provides design data and installation instructions to architects, engineers, specifiers, and contractors.

INSTALLATION

Lagging wall: Install the Poly Cover tie back cover by anchoring into lagging with mechanical fasteners in all four corners. The Poly Cover must be clean and dry. Then apply a strip of 606 Tape to the flat edge of the Poly Cover. Remove release liner and bring Blindside Membrane tightly up to base of dome over the 606 Tape. Prime the fabric side of the Blindside Membrane with 650 LT Liquid Adhesive or California Sealant and apply Detail Sealant PW[™] or LM-95 on the primed fabric and onto the unprimed dome of the Poly Cover a minimum of 3-inches. The entire dome is not required to be covered.

SAFETY

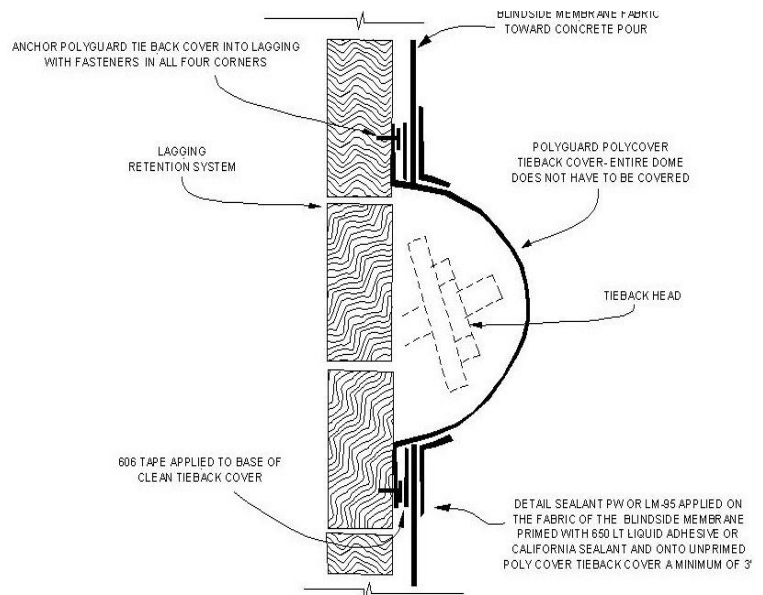

SDS sheets for all Polyguard products can be obtained at our website www.polyguard.com. Call Polyguard Products, Inc. at 214.515.5000 with questions.

WARRANTY

We, the manufacturer, warrant only that this product is free of defects, since many factors which affect the results obtained from this product are beyond our control; such as weather, workmanship, equipment utilized and prior condition of the substrate. We will replace at no charge product proved to be defective within twelve (12) months of purchase, provided it has been applied in accordance with our written directions for uses we recommended as suitable for this product. Proof of purchase must be provided. A five (5) year material or system warranty may be available upon request. Contact Polyguard Products, Inc. for further details.
