

Polyguard® PRM™ Sheet Waterproofing Membrane

**Available in: 200 SF roll
49" x 49' roll
1 roll per carton**

Features & Benefits

- Strong, puncture resistant, self-adhering sheet membrane with a double-thick, high-strength, cross-laminated polyethylene backing
- Adheres tightly and permanently to concrete
- Backing forms a continuous barrier to water and moisture vapor entry
- Allows for faster waterproofing applications by eliminating the step to install an additional protection course prior to backfilling operations
- HORIZONTAL - designed for application to horizontal slabs such as parking garages, plaza decks, plywood decks, and related applications where waterproofing is critical
- VERTICAL - designed for application to the exterior sides of vertical concrete foundation walls, tunnels, and related applications where waterproofing is critical
- The Underseal® PRM™ can be utilized in the Dual Core System that capitalizes on both the advantages of a fluid-applied and sheet-applied membrane in a single system
