POLYGUARD[®] UNDERSEAL[®] UNDERSLAB MEMBRANE

WATERPROOFING SYSTEM: BELOW-GRADE SHEET MEMBRANE

Polyguard Underseal[®] Underslab Membrane

Our premier product with superb puncture resistance and excellent resistance to lateral water migration. The primary use for 85-mil thick Underseal[®] Underslab Membrane is sheet-applied waterproofing under a below-grade slab or on-grade floor slab. Substrates for this application should be compacted soil, not greater than compacted #57's, round aggregate gravel, or a mud slab. It can also be used vertically in waterproofing of concrete walls over earth retention systems.

Check	Part Number	Unit Size	Units/pallet	Wt/unit
Polyguard Underslab Membrane	850	48" x 50' roll	20 rolls/pallet	98#/roll
