
MATERIAL

Warranty Requirements

(For standard 5 year Material Warranties)

Polyguard Products offers a standard 5 year Material Warranty. Please follow the terms and conditions below.

1. The following required documents are to be submitted to Technical Services Department before Polyguard reviews and commits to providing the warranty:
 - A completed Architectural Warranty Application.
 - A copy of the Project Specification.
2. The applicator shall have at least three (3) years of experience in applying the types of specified materials; and specifically accepted in writing by Polyguard Technical Services Department. Certain projects may require Polyguard's applicator training.
3. Polyguard products and accessories shall be installed as part of the system and according to manufacturer specifications, recommendations and details. System products not supplied by Polyguard require written approval by Technical Services Department prior to installation.
